| | | | | | | | Mercury | 10% | | |
| | | | | | | | Nickel | 23% | | |
| | | | | | | | Silver | 1% | | |
| | | | | | | | Uranium | 2% | | |

Total ELCR and total HI represent total risk or hazard summed across all routes of exposure for all COPCs.

*No COCs = There are no COCs.

ELCR for Future Adult Resident and Future Child Resident are the combined lifetime scenario.

ELCR for Future Adult Recreational User, Future Teen Recreational User and Future Child Recreational User are the combined lifetime scenario.
