

2017 Community Survey

Submitter	Form Type	Date submitted	Please rate your knowledge of the cleanup at the U.S. Department of Energy Paducah Gaseous Diffusion Plant	Have you had any involvement with the site?	Do you have any concerns about cleanup at the site?	Do you have a primary concern about these cleanup actions at the site?	Are you aware of any issues that are not being addressed at the site?
site.reviewer	Community Survey	Mon, 10/09/2017 - 12:48	Some Basic Knowledge	Relative of a Former or Current Worker, Plant Neighbor	Soils and Groundwater Contamination, Air Quality, Radiation Exposure, Protection of Workers, Protection of Community, Funding Availability	The work is performed safely.	Future land use
site.reviewer	Community Survey	Mon, 10/09/2017 - 12:31	Very Little Knowledge	Concerned Citizen	Soils and Groundwater Contamination, Air Quality, Radiation Exposure, Protection of Workers, Protection of Community	The work is performed safely.	Soil and groundwater contamination, Future land use
site.reviewer	Community Survey	Thu, 10/12/2017 - 13:53	Very Knowledgeable	Former Worker, Concerned Citizen, Plant Neighbor, Worked as escort for 20 years (Lockheed Martin, USEC, etc.)	Soils and Groundwater Contamination, Air Quality, Radiation Exposure, Protection of Workers, Protection of Community	The work allows the property to be returned to the community.	Soil and groundwater contamination, Future land use
site.reviewer	Community Survey	Mon, 10/09/2017 - 12:39	Very Knowledgeable	Relative of a Former or Current Worker, Plant Neighbor	Soils and Groundwater Contamination, Protection of Community	Health concerns.	Future land use
site.reviewer	Community Survey	Thu, 10/12/2017 - 12:47	Very Little Knowledge	Relative of a Former or Current Worker, Plant Neighbor	Protection of Community	The work is performed safely.	Not applicable (no concerns)
site.reviewer	Community Survey	Mon, 10/09/2017 - 12:51	Some Basic Knowledge	Relative of a Former or Current Worker	Protection of Community	The work is addressed in a timely manner.	Not applicable (no concerns)
site.reviewer	Community Survey	Thu, 09/14/2017 - 16:44	Fairly Knowledgeable	Current Worker	Not applicable (no concerns)	I have no concerns about the site.	Not applicable (no concerns)
PaducahSiteSurvey	Community Survey	Sat, 09/02/2017 - 06:34	Some Basic Knowledge	Former Worker, Relative of a Former or Current Worker, Plant Neighbor	Soils and Groundwater Contamination, Radiation Exposure, Protection of Workers, Protection of Community	Health concerns.	Future land use, Scheduling or timeline of cleanup

2017 Community Survey (Continued)

I consider that the government stakeholders are strongly committed to cleaning up hazardous substances at the site.	How are you aware of contamination associated with the site?	What contacts have you had with officials associated with the site about cleanup at the site?	Did the officials at the site respond in a way that answered your questions/needs?					
			DOE Officials	EPA Officials	Kentucky Environmental Officials	Kentucky Recreational Officials	Companies working for the government at the site	Other
Strongly Agree	Informational Mailers (delivered to your home)	Not applicable (no interaction)						
Strongly Agree	Public Notices, Through the Paducah Citizens Advisory Board, Informational Mailers (delivered to your home)	Not applicable (no interaction)						
Strongly Agree	Newspaper, Television, Public Notices, Through the Paducah Citizens Advisory Board, Through the McCracken County Public Library, Through the Paducah Environmental Information Center, Informational Mailers (delivered to your home)	DOE Officials, EPA Officials, Kentucky Environmental Officials, Companies working for the government at the site	Somewhat Agree	Somewhat Agree	Somewhat Agree		Somewhat Agree	
Strongly Agree	Public Notices, Informational Mailers (delivered to your home)	Not applicable (no interaction)						
Somewhat Agree	Newspaper, Television	Not applicable (no interaction)						
Somewhat Agree	Newspaper, Television, Public Tours, Informational Mailers (delivered to your home)	Not applicable (no interaction)						
Somewhat Agree	Television	DOE Officials, EPA Officials, Kentucky Environmental Officials, Companies working for the government at the site	Strongly Agree	Somewhat Agree	Strongly Agree		Strongly Agree	
Somewhat Disagree	Newspaper, Social Media, Personal Knowledge	Other						Somewhat Disagree

2017 Community Survey (Continued)

Do you regularly receive information about the cleanup of the site through the following sources?	Would you like to obtain information about cleanup of the site more frequently?	What are the best ways to provide you with information about cleanup activities at the site?	How often would you like to receive information about the site?	Have you visited the U.S. Department of Energy Portsmouth/Paducah Project Office website, <a href="https://energy.gov/pppo">https://energy.gov/pppo</a> ?	Is there anything else you would like to share about the cleanup progress/activities at the Paducah Gaseous Diffusion Plant?
Newspaper, Television, Informational Mailers (delivered to your home)	Yes	Newspaper, Television, Paducah Environmental Information Center, Informational Mailers (delivered to your home), Websites, Social Media	Once a month	No	Local workers if possible
Through the Paducah Citizens Advisory Board, Informational Mailers (delivered to your home)	Yes	Informational Mailers (delivered to your home)	Once a quarter	No	No
Newspaper, Public Notices, Informational Mailers (delivered to your home)	Yes	Newspaper, Television, Public Tours, Public Notices, Paducah Environmental Information Center, Informational Mailers (delivered to your home), Community Meetings, Kentucky Oversight Quarterly Newsletter	Once a quarter	No	Worked at PGDP for 20 years as escort 1996-2016 Lockheed Martin, USEC, AIMS, Seminole Systems
Through the Paducah Environmental Information Center	Yes	Public Notices	Once a month	No	Yes - How many (sp?) more years is it going to take to clean it up
Newspaper, Television	No	Newspaper, Television	Once a quarter	No	
Newspaper, Television, Public Notices, Informational Mailers (delivered to your home)	No	Newspaper, Television, Public Tours, Public Notices, Paducah Environmental Information Center, Informational Mailers (delivered to your home), Community Meetings, Social Media	Once a quarter	No	
Television	No	Television, Websites	Once a quarter	Yes	
Fellow Workers	Yes	Newspaper, Television, Social Media	Once a quarter	No Knowledge	As we are all aware this plant will never be " Completely Cleaned Up". There have been and was to many years of mismanagement from the contracted operators of this facility. The DOE had little to no over site over them and their goal was to reap the benefits and move on. There are areas in this facility that I feel will leach contaminants for eternity. With the so called dump being a major concern with who know what being buried and covered up.

Is there anything else you would like to share about the cleanup progress/activities at the Paducah Gaseous Diffusion Plant?
Newspaper, Television, Social Media	Yes	Informational Mailers (delivered to your home), Community Meetings, Social Media	Once a quarter	Yes	Why are they laying people off? When, in reality, the government has designated funds for the cleanup of this site. It seems that every few years the employees at PGDP have to fear their jobs being cut and passed off to other clean up crews or other companies that outbid one another. This is a serious clean up progress which could and should entail those that have the special training and who are already trained in this area. It is a waste of tax payers money to drag this out and rehire, retrain, and reassign former employees. The community wants this site to be cleaned up in a proper way with knowledgable employees who take this seriously.
Informational Mailers (delivered to your home)	No	Informational Mailers (delivered to your home), Websites, Social Media	Once a month	No	work input is not requested or appreciated from the workers. work instruction comes from top down
Newspaper, Television, Public Notices, Informational Mailers (delivered to your home)	Yes	Newspaper, Television, Informational Mailers (delivered to your home)	Once a quarter	Yes	Would have like to seen more help for the children whos father died due to working at the plant

Public Notices, Fact Sheets	Yes	Newspaper, Television, Public Notices, Paducah Citizens Advisory Board, Paducah Environmental Information Center, Informational Mailers (delivered to your home), Community Meetings	Once a quarter	No Knowledge	Would like to know more about the water policy. When I originally bought my current home 5 years ago the water bill was payed for by the DOE which from the previous owner I was informed that i would have free water because of contamination and now i am being charged. I was informed from West McCracken Water because I was not the original owner that I was not entitled to that. I have a problem with that seeing is there is a well on the property which i am not allowed to use because of water contamination, yet I am forced to pay for public water. According to the water policy owners were asked to sign a agreement to pay for water bills as to not use any current wells. I didn't not sign an agreement , does that mean I could use the well? Not for human consumption but water lawns or wash cars, etc... the water policy is vague on the legality of this if one did not sign the agreement, clarification would be appreciated.[Personal information removed.]
i do not hear about the cleanup	Yes	Newspaper, Television	Once a quarter	No	you hear about how much its costing us for cleanup and that there are alot of people working and how much money they are making but you dont see or hear alot about how much has actually been accomplished.You can get alot done in an 8 hour day with that many people. i pray its not another fleecing of america and people are actually doing the job they are getting payed for.
