Ms. Jamie Nielsen, Supervisor
Permit Administration Section
Division of Waste Management, Solid Waste Branch
Kentucky Department for Environmental Protection
300 Sower Boulevard, 2nd Floor
Frankfort, Kentucky 40601

PPPO-02-10009789-21D

Dear Ms. Nielsen:

TRANSMITTAL OF ERRATA PAGES FOR THE C-746-S&T AND C-746-U SOLID WASTE LANDFILLS FOURTH QUARTER CALENDAR YEAR 2018 WASTE OPERATING REPORT, PADUCAH GASEOUS DIFFUSION PLANT, PADUCAH, KENTUCKY, FRNP-RPT-0032/V4, SOLID WASTE PERMIT NO. SW07300014, SW07300015, SW07300045, AGENCY INTEREST NO. 3059

Reference: Letter from J. Woodard to J. Nielsen, "C-746-S&T and C-746-U Solid Waste Landfills Fourth Quarter Calendar Year 2018 Waste Operating Report, Paducah Gaseous Diffusion Plant, Paducah, Kentucky, FRNP-RPT-0032/V4, Permit No. SW07300014, SW07300015, SW07300045, Agency Interest No. 3059," (PPPO-02-5355582-19B), dated January 15, 2019

Enclosed are the certified errata pages for the subject document. The errata pages have been uploaded to the Kentucky eForms portal via the Kentucky Online Gateway. Other recipients outside the Solid Waste Branch are receiving this document via e-mail distribution (see distribution list). The enclosed errata pages have been prepared to correct reporting errors related to the volume of leachate in Tank F-001 that was recorded on November 14, 2018, from 23,000 gal to 2,300 gal. This revision has no resulting consequence on the total amount of leachate treated and discharged as reported.

If you have any questions or require additional information, please contact David Dollins at (270) 441-6819.

Sincerely,

A handwritten signature in cursive script that reads "Jennifer Woodard".

Jennifer Woodard
Paducah Site Lead
Portsmouth/Paducah Project Office

LEACHATE LOG.....	9

THIS PAGE INTENTIONALLY LEFT BLANK

REPORT SUMMARY

The information contained herein is submitted in accordance with the requirements of Solid Waste Permit Number SW07300014, SW07300015, SW07300045, and 401 KAR 47:190 § 8(1)(a) through (c) and (e), for the fourth quarter of calendar year 2018 for the Paducah Gaseous Diffusion Plant, McCracken County, Kentucky.

In the fourth quarter of calendar year 2018, a total of 671.04 tons of industrial waste generated from environmental remediation activities was disposed of in the C-746-U Contained Landfill. No special waste, spill residue-containing materials, or asbestos-containing materials were disposed of in the landfill this quarter.

The C-746-S Residential Landfill has been inactive since July 1995, and the C-746-T Inert Landfill has been inactive since June 1992.

Analytical results for surface water, groundwater monitoring, and methane monitoring are submitted in separate quarterly Compliance Monitoring Reports for the C-746-U Landfill and C-746-S&T Landfills [401 KAR 47:190 § 8(1)(d)]. No other data/results for site-specific conditions were generated in this reporting period.

Leachate Collection and Disposition

A total of 219,800 gal of leachate from the C-746-U Landfill was treated at the C-746-U15 Leachate Treatment Facility this quarter. No leachate from the C-746-S Landfill was treated during the quarter. There was no leachate transported to the C-615, C-742-A, or C-753-A treatment facilities. The leachate is stored in five permitted holding tanks (F-001, F-002, F-007, F-008, and F-009) with a total capacity of 104,200 gal. Tank F-004 is a 2,500-gal surge tank for the leachate treatment system. Tanks F-005 and F-006 were removed in 2014. The tank volume reported on the leachate log is the volume at the time of measurement. Calculation of the next day tank volume by subtraction of disposal volume may not reflect the measured tank volume because additional leachate had entered the system.

Construction Activities and Cover Maintenance

During October 1–November 29, 2018, Posi-Shell®, consisting of a mixture of bentonite and Portland cement, was applied to the long-term cover over Phases 1, 2, and 75% of 3. This Posi-Shell® mixture was used in order to reduce the amount of leachate generated in this portion of the landfill. It is estimated that the generation of leachate has been reduced by 50%. The exact amount of reduction will be confirmed when additional data is obtained.

There were no construction activities for either the C-746-S or C-746-T Landfills. The landfills were inspected for subsidence in accordance with the cover requirements [401 KAR 48:080 § 9(6)(f)]. No repairs were necessary during the quarter.
