

Notes:
 1. Data from the maximum result sampled 2019-2020.
 2. For co-located wells completed at multiple depths, the highest value for the period was mapped.

LEGEND

2020 Tc-99 Plume Concentration Fields for Alternate Interpretation Using Maximum Concentrations

2020 Tc-99 Plume Concentration Fields (Figure C.2)

- Monitoring Well Identification and Sample Value (In pCi/L)
"U" by the sample value indicates the value is reported < minimum detection limit and/or total propagated uncertainty of the counts seen by a detector, minus a background count.

- Lower RGA Well
- Middle RGA Well
- Upper RGA Well

- Multizone RGA Well
- Active Extraction Well
- Inactive Extraction Well
- Water Policy Area

- DOE Property Boundary
- Roadways
- Streams
- 229 Boundary
- PGDP Boundary
